TeleGIF, A Nonprofit Corporation
President -- TeleGIF, A Nonprofit Corporation, Marina del Rey, CA, 11/1997 - present.

> Educational nonprofit corporation.

TeraGIF Inc.
President -- TeraGIF Inc., Marina del Rey, CA, 11/1997 - present.

> Software product design and development.

University of Maryland
Senior Research Scientist -- Dept. of Computer Science & UMIACS, University of Maryland, College Park, MD, 8/2001 - 12/2001.

> Research and prototype development on the *Bistro* project. The *Bistro* project is funded by a NSF Digital Government grant.

Lecturer -- Dept. of Computer Science, University of Maryland, College Park, MD, 8/1999 - 12/2001.

> Part-time teaching position for CMSC420, an undergraduate Data Structures class.

CyberMedia Inc.
Senior Software Engineer -- CyberMedia Inc., Santa Monica, CA, 7/1992 - 8/1997.

> Design and development of CyberMedia ActiveX controls for CyberMedia's *ActiveHelp* framework.

> Design and development of internal tools for CyberMedia's *Oil Change* end-user product.

> Lead a group of a few people in the design and development of the *reactive* part of various version of the *First Aid* end-user product.

Hughes Aircraft Co.

Senior Systems Engineer -- Hughes Aircraft Co., El Segund, CA, 1/1992 - 7/1992.

Lead a group of 2 people in the design and development of the Multimedia Object Workbench (MOW) internal research and development project. The MOW is an environment for building multimedia applications with data management requirements using object-oriented technologies. It uses GemStone's object-oriented DBMS, runs on SUNs with X11/Motif, and interfaces with various relational DBMS's.

UCLA Computer Science

Research Assistant -- Computer Science Department, UCLA, Los Angeles, CA, 1/1988 - 9/1991.

Design and development of the Tangram modeling environment, implemented in C++ with the InterViews and Unidraw X11 toolkits.

Design and development of a distributed database application domain including specialized performance evaluation tools for handling large models that exhibit various degrees of symmetry.

Design and development of the Tangram's Graphical Interface Facility in C with X11 Xlib.

Teradata Corp.

Consultant -- Teradata Corp., Los Angeles, CA, 5/1989 - 7/1990.

Design of part of the Intel 80386-based processor module hardware for the DBC1012 database computer. Also assisting in trouble-shooting the design of the same processor module.

Training technicians in the manufacturing department to trouble-shoot defective boards.

Trouble-shooting boards with unusual failure modes.

Hughes Aircraft Co.

Member of Technical Staff II -- Hughes Aircraft Co., El Segundo, CA, 1/1986 - 12/1987.

Design and development of the Resource Monitor (a software oscilloscope/logic analyzer) in C with the SunView toolkit.

Internal R\&D on distributed debugging and behavioral verification of programs.

Teradata Corp.

Design Engineer -- Teradata Corp., Los Angeles, CA, 4/1984 - 12/1985.

Design and development of the board-level Intel 80286-based processor module hardware for the DBC1012 database computer.

Basix Controls Systems Corp.

Member of Technical Staff -- Basix Controls Systems Corp., Carson, CA, 6/1983 - 4/1984.

Design and development of the board-level Z80-based Terminal Interface Processor hardware and its test software for a proprietary security system.

Mattel Electronics

Member of Technical Staff -- Mattel Electronics, Hawthorne, CA, 10/1982 - 6/1983.

Design and development of the In-Circuit Emulator hardware and its monitor software for the Intellivision video game unit.

Design and development of a board-level data acquisition/signal processing system.

Network Associates creates subsidiary to sell CyberMedia security products

After buying CyberMedia Inc. for $130 million, Network Associates Inc. has created a software subsidiary to market CyberMedia's First Aid 98, Guard Dog, Oil Change and Uninstaller utilities as standalone products.

Other packages Network Associates plan to push as standalones are the company's Nuts & Bolts and ViruScan products, said Pete Stewart, vice president and general manager of the Santa Clara, Calif., company's McAfee Software Division.

The server diagnostic and self-healing technology created by CyberMedia of Santa Monica, Calif., for its Support Server Repair Engine will now become part of Network Associates' Total Service Desk Suite and might be fully integrated with it later, Stewart said.

The Navy and National Institutes of Health use CyberMedia products, and the Army and Bolling Air Force Base in Washington are evaluating Support Server Repair Engine, said Carol K. Kerins, CyberMedia's federal sales executive.

CyberMedia's resellers are Data Procurement Corp. of Rockville, Md., Government Technology Services Inc. of Chantilly, Va., McBride and Associates Inc. of Albuquerque, N.M., and Pulsar Data Systems Inc. of Lanham, Md.

Contact Network Associates at 408-988-3832.
